Discover the PartyLite® Experience

PartyLite candles and decorative accessories are so good, they're offered exclusively by independent consultants in a relaxed home setting so you and your friends can experience the PartyLite difference. And when you host a get-together, you can receive products of your choice at no charge.

To find a PartyLite consultant, or to learn more about our rewarding career opportunity, visit www.partylite.com or call 888-835-3886.

PARTYLITE

INTERNATIONAL FLIGHTS

Sentient Jet is pleased to be able to accommodate your private jet needs even when your plans call for international travel. However, due to many factors, Membership rates do not apply on flights outside the continental U.S. Instead, we quote rates on a case-by-case basis. We encourage you to call your Client Service Representative for a quote. Although we cannot guarantee the five-hour response time of Private Jet Membership, we can guarantee a 72-hour response time. Additional fees you can expect with international travel:

- Navigation fees
- Positioning fees
- Landing fees
- Overnight fees
- Taxes
- Required permits

In Step with Workflow Demands

Whether processing delicate instrumentation or large surgical case carts, Reliance® systems are designed for minimal handling, versatile loading, easy set-up, increased capacity, and fast turnaround.

- A broad combination of configurations—from counter-height models to large-capacity single-chamber or index washer designs—meets the needs of any department.
- A wide selection of interchangeable trays and accessories enable you to customize each load for maximum protection of even the most delicate instrumentation.
- Unique double-pane glass windows on all of our washers allow for continual monitoring of cycle progress.
- Innovative detergent delivery systems, such as our patented Bag-in-a-Box, chemistries for counter-height models, facilitate cycle customization and make changeover effortless.
- Complete programming flexibility with easy-to-use control systems save programming time.

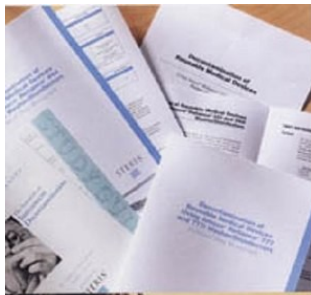

Automated Transport Systems

STERIS's Systems Project Managers can help integrate an Automated Transport System (ATS) into your new or existing washer/disinfecter system to maximize productivity, reduce staff handling time, and increase overall utilization of your space and equipment.

- Modular design seamlessly interfaces with Reliance single-chamber or index washing systems.
- Loads manifold tray racks are automatically transferred as a washer becomes available.
- Load/Unload modules allow for up to 1.5 hours of continuous operation, freeing up staff for other demands.
- Bar codes identify the cycle selection and initiate the process.

Extensive in-service and education offerings assure that your staff is well trained on the essentials of instrument handling and decontamination techniques.
